

Browsers Supported by D2L

Last Modified on 11/02/2021 8:20 am CDT

Please use a browser that is identified as supported below.

Desktop Support

D2L is supported on the following desktop platforms with the latest browser versions:

Platform	Apple Safari	Google Chrome	Microsoft Edge	Mozilla Firefox
Apple macOS	Yes	Yes	Yes	Yes
Microsoft Windows	No	Yes	Yes	Yes

Mobile Support

D2L is supported on the following tablets and mobile devices with the latest browser versions:

Platform	Apple Safari	Google Chrome	Microsoft Edge	Mozilla Firefox
Apple iOS for iPhone and iPad	Yes	No	No	No
Android OS for phones and tablets	No	Yes	No	No

Retro and Legacy Browsers

You can access D2L with retro or legacy browsers (older versions of supported browsers); however, D2L does not test against these older versions. This means you may encounter unexpected user interface behavior and appearance, or broken and unsupported functionality.

In most cases, LSC-Online does not provide technical support experienced in retro and legacy browsers, except to recommend updating the browser.

If a user attempts to connect to D2L with an unsupported browser, D2L's browser check displays a retro or legacy browser warning message.

See below:

Sorry, but [browser name] is no longer supported.

Older browsers are slower, less secure, and don't support our latest features.

Please [update \[browser name\]](#) or download another browser such as [Google Chrome](#) or [Mozilla Firefox](#).

Proceed Anyway

Your browser is looking a little retro...

Sorry, but **Google Chrome** version **89** is no longer supported.

Older browsers are slower, less secure, and don't support our latest features.
