

Respondus LockDown Browser & Monitor

Last Modified on 05/10/2022 10:04 am CDT

Respondus LockDown Browser is a custom browser that locks down the testing environment within the learning management system. Respondus Monitor is a system that uses the student's webcam to record the student taking the exam. Both are designed to decrease the frequency of cheating on exams.

1. If your instructor is requiring Respondus LockDown Browser or RespondusMonitor, [read the Student Quick Start Guide](https://web.respondus.com/wp-content/uploads/2019/08/RLDB-Quick-Start-Guide-D2L-Student.pdf) (<https://web.respondus.com/wp-content/uploads/2019/08/RLDB-Quick-Start-Guide-D2L-Student.pdf>)
 2. Use a [supported browser](https://vlac.lonestar.edu/help/a274) (<https://vlac.lonestar.edu/help/a274>) to navigate to the exam and LockDown Browser/Monitor will launch automatically when it is required.
