

# Grid View and Reading View

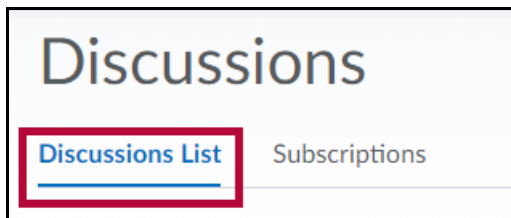

Last Modified on 06/01/2022 3:25 pm CDT

## Discussions Settings

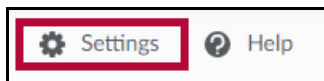

1. Click on **Collaboration** on the navbar and select **Discussions**.

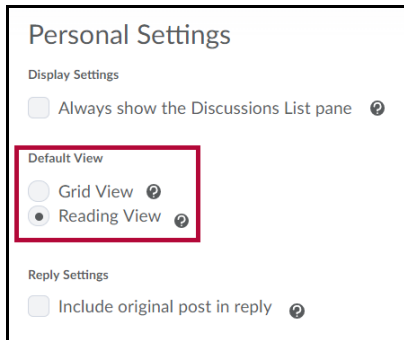

2. The Discussions List screen appears.

3. Click on the **Settings** button on the top right corner of the Discussions screen.

4. Select a view.

## Grid View

Grid view allows you to see a concise list of the titles of posts.

<input type="checkbox"/>				Subject
<input type="checkbox"/>				Antibiotic Resistance
<input type="checkbox"/>				Antibiotic Resistance
<input type="checkbox"/>				Cellular Respiration and Antibiotics
<input type="checkbox"/>				Cellular Respiration
<input type="checkbox"/>				Cellular Respiration
<input type="checkbox"/>				Cellular Respiration.
<input type="checkbox"/>				Cellular respiration and the effects of bactericidal a

## Reading View

Reading view allows you to see the complete body of a post in an inline frame. Each post is collapsed to save space, click **more** to display the full post.

**Antibiotic Resistance** ▾  
posted Oct 13, 2017 10:45 PM [Subscribe](#)

"Each year in the United States, at least 2 million people become infected with bacteria that are resistant to antibiotics and at least 23,000
