

Record with the TechSmith Knowmia Recorder

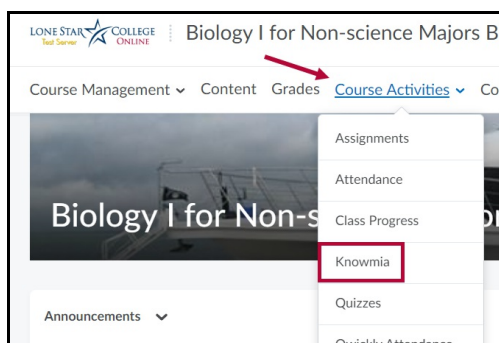

Last Modified on 11/02/2021 4:14 pm CDT

The TechSmith Knowmia recorder provides a simple, straightforward video capture experience that will allow users to easily create screencasts or webcam videos to put into their courses.

Advantages to this recorder include:

- You can view videos immediately after upload.
- You can record specific regions of your screen, as well as full-frame webcam videos. You can even switch between screen and webcam while you are recording.
- You don't need admin rights, and the recorder is a small download and a lightweight installation on any machine.

To reach the TechSmith Knowmia screen, click **Course Activities** and choose **Knowmia**.

See more information about how to use the Knowmia recorder, called TechSmith Capture.
