Work To Do Widget

The **Work To Do** widget provides students a summary of assigned learning activities from all their courses that are overdue or have an upcoming due date.

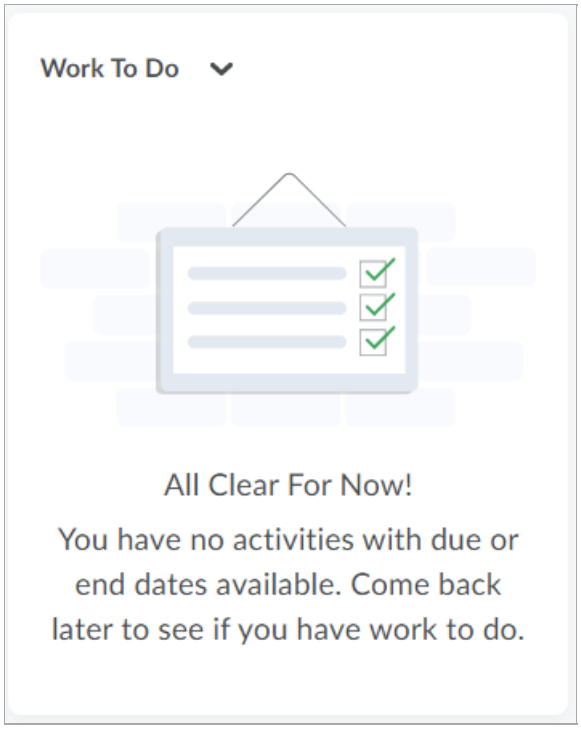

The **Work To Do** widget displays the following learning activities:

- Assignments
- Checklists
- Content
- Courses
- Discussions
- Surveys
- Quizzes

If students have activities that are late or due, the widget displays the following:

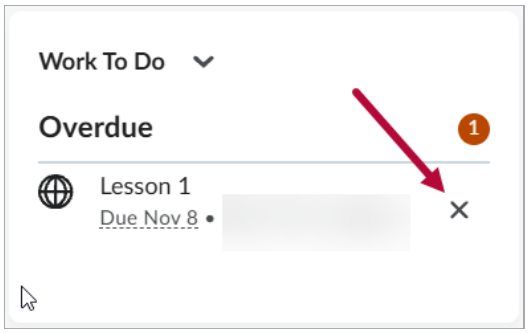

If students have no activities late or due, the widget displays the following:

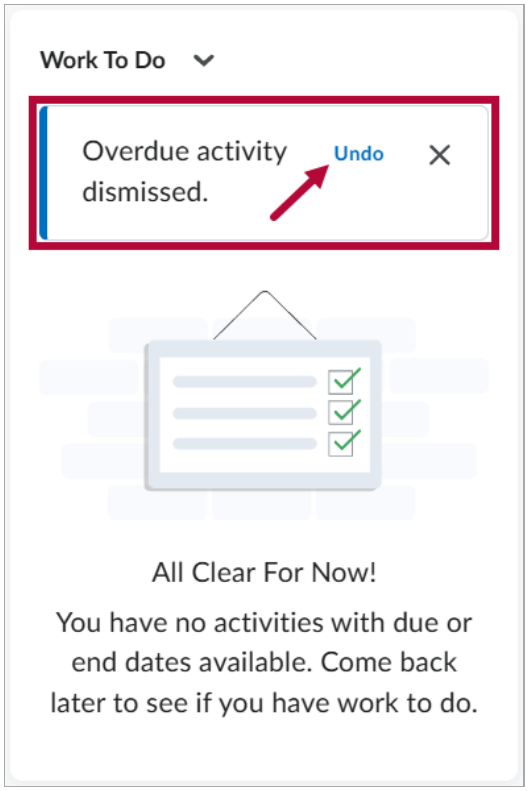

Dismissing Overdue Items from the Work To Do Widget

Sometimes, due to various limitations, a content module or assignment may say it is **Overdue** even though you have completed it. If your Instructor confirms that you have completed the assignment, but it still shows as Overdue in the **Work To Do Widget**, you can click the **[X]** to dismiss the item.

If you find you have dismissed an assignment by mistake, you can click **[Undo]** to restore the assignment.

Work To Do
Overdue activity dismissed.
