Use EquatIO for accessibility and more

Last Modified on 01/29/2025 3:56 pm CST

EquatIO allows the creation of digital equations and formulas. It also offers other STEM and graphing tools. EquatIO can be used within the D2L Editor, on your desktop (Windows or Mac), in Google Chrome and EquatIO MathSpace website. EquatIO formulas enable the user to read, write, and listen to scientific material because EquatIO generates *alternative text*, attached to the formula image, containing its description. This alternative text is used by readers like <u>Read</u> <u>Speaker (https://vtac.lonestar.edu/help/a124)</u> and Read and Write.

Show Video Overview

EquatIO accepts several inputs:

- Equation Editor
- Graph Editor
- Handwriting recognition
- Speech Input
- Screenshot Reader
- STEM Tools (Periodic table, Scientific Calculator and Molecular Viewer)
- EquatIO Mobile

In this article:

- EquatIO Instructional links
- How to access EquatIO on D2L Editor
- How to find the alternative text generated by EquatIO
- How to use Google Chrome EquatIO

How to use Google Chrome EquatIO

 Go to the D2L assignment, quiz or discussion topic page where you want to [Insert Math]. Select [Google Chrome Extensions] * on the right of your search bar. Select EquatIO Extension. You can pin the Extension on you toolbar selecting the pin # symbol.

- 2. The Equatio bar will appear in the bottom of your page.
- 3. Choose the **Input Type** (Equation Editor, Graph Editor, Handwriting recognition, Speech Input, Screenshot Reader, STEM Tools or EquatIO Mobile) and write your answer. Put the cursor in the D2L editor box and than select **[Insert Math]**.
